On Wednesday morning, a traveling salesman with a grip in each hand got off the car and started up the street. Passing a group on a corner, he heard this comment: "I'll bet he has a bottle in his grip." Being a jovial good fellow, the salesman promptly set his burden down on the sidewalk, opened a grip and produced the expected bottle, giving the man nearest him a drink, then one to the next one. The man who had the second drink, however, possessed a stomach that promptly rejected the liquid refreshment—and ejected it; and it was found that the bottle contained the finest quality of Heinz triple-strength, good old-fashioned vinegar. The names of those who imbibed, were not given us.

## WHY YOU ARE NERVOUS

The nervous system is the alarm system of the human body. In perfect health we hardly realize that we have a network of nerves, but when health is ebbing, when strength is declining, the same nervous system gives the alarm in headaches, tiredness, dreamful sleep, irritability and unless corrected, leads straight to a breakdown. To correct nervousness, Scott's Emulsion is exactly what you should take; its rich nutrient gets into the blood and rich blood feeds the tiny nerve-cells while the whole system responds to its refreshing tonic force. It is free from alcohol. Scott & Bowne, Bloomfield, N. J.
